

**The National Fly Fishing Championship will be held along Colorado's Front Range October 1, to 6, 2007. The event is the largest and most prestigious fly fishing competition in the United States and involves teams from across the country and overseas.**

**The US competitors are here to win a spot on Team USA which competes in the World Championships and other international events. This is an Olympic style competition - medals are the only reward.**

**The National Fly Fishing Championship is far more than a competition it's about encouraging the growth of fly fishing, creating public awareness on conservation issues, and creating learning and training opportunity for individuals of all ages that currently participate or would like to participate in the sport of fly fishing. This is why CTU and the fly fishing industry are solidly behind this activity.**

**We need volunteers to make this event possible. You'll be right where the action is and we'll guarantee you will learn something new about the sport.**
